

Hello families, what is Kinderloop?

Kinderloop provides a secure way for child care providers to share information with parents, through real-time updates.

Each Kinderloop is a private closed loop, posts are only shared with invited family members & staff and cannot be shared across the web. *(Content is owned by the service provider)*

Agreement: By logging in to Kinderloop, you consent to your educator/care provider using Kinderloop to send you updates, photos and videos about your child, and you will not share these photos anywhere other than Kinderloop.

Your consent

I, _____ [name in print] consent to have the image of my child[ren] _____ [name in print] captured by educators for the purpose of developmental reporting & secure parent communication using our private Kinderloop. This includes group photos shared with other family members from my child's class/group. You agree to never share these photos anywhere other than Kinderloop, we appreciate your respect in regards to the privacy of other families.

My child's date of birth _____ Attendance days _____
