

Printing your child's posts

This info sheet gives you the basic requirements for printing your child's posts if your educator has the option switched on for you.

Step 1. Ensure your educator has switched on 'parent printing' in their settings

Step 2. Login online via kinderloop.com via the Google Chrome browser (preferred)

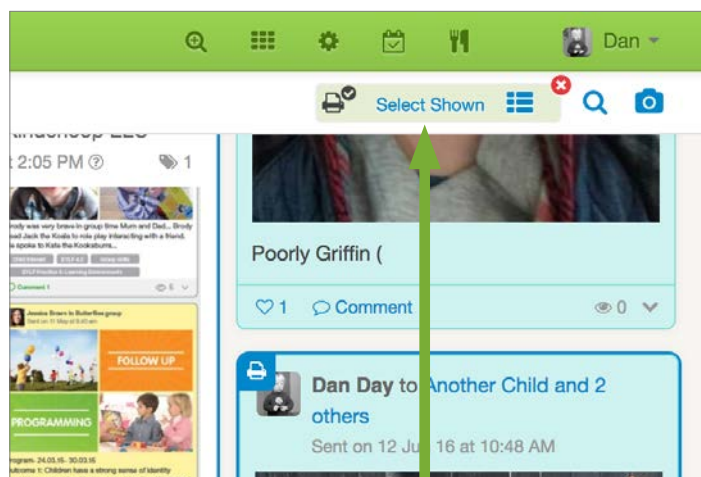

Step 3. Prepare your print!

1. On the web

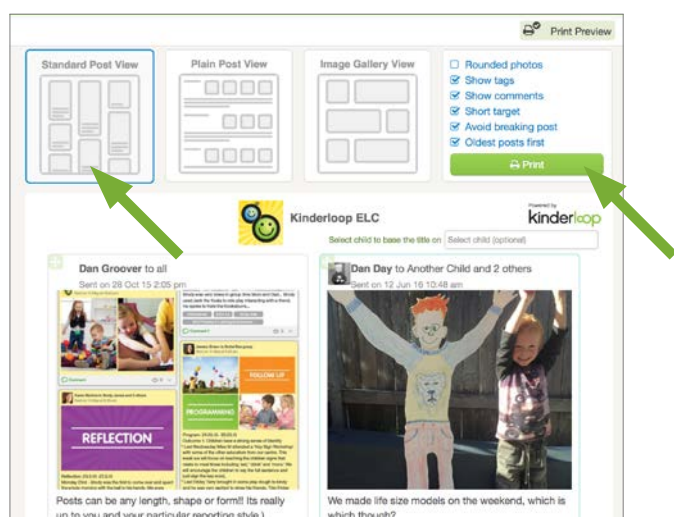

On a web browser, go to **www.kinderloop.com**

Click the 'Print' icon. You may need to scroll to the bottom of the page and load more a few times to get all of your posts loaded.

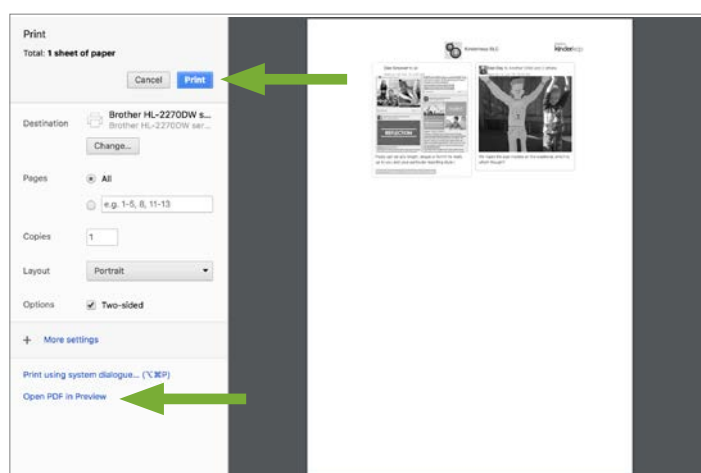

2. Choose posts

Either click  **Select Shown**  or click the posts you want to print (they will then have a blue border showing they are selected).

3. Select template

Click  the template button to choose a template for your posts, choose either standard, plain or simple image view. *Note: you can click on images to remove them from the final selection along with the other options on the right.*

4. Print or save to pdf

Click  the print button then select your printer or save to a pdf (this will depend on your system software).
