

Securely connecting parents with educators

Kinderloop provides a secure, fun and cost effective way for child care providers to share information with family through real-time updates.

Benefits

- **Secure and private.** The data is only accessible by the families members invited
- Care providers use **smart devices to capture news**, events, photos, and reminders as they happen saving on average, an hour per day
- Parents receive photos, news, and reminders from their school **on their phones** or computers all in real time!
- Family members can **continue the learning** with their children at home
- No repetitious input. Easy reporting on **developmental milestones**, learning journeys, and school-wide updates
- Helps develop and maintain a **positive and constructive relationship** with parents and family members
- **Securely invite additional family members** worldwide to view their child's Kinderloop

Ask your care provider to **invite you** to their private Kinderloop today
