Hello parents!

What is Kinderloop?

Kinderloop provides a secure way for child care providers to share information with parents, through real-time updates.

Each Kinderloop is a private closed loop, photos are only shared with invited family members or staff and cannot be shared across the web. (Content is owned by the care giver)

Sometimes we seek permission to use real-life images in our branding (image right) to give an honest representation to new users. If you do not want your child included in any small Kinderloop image mock-ups, please tick this box [

Benefits for parents and teachers

- Secure and private. The data will be accessible only by the families invited
- Use smart devices to access news, events, photos, and reminders as they happen without being tied to a clipboard or computer
- Parents receive photos, news, and reminders from the educator on their smart device or via the web
- Easily report on developmental milestones, curriculum themes, and school-wide updates
- Helps develop and maintain a positive and constructive relationships with your child's care giver & your family
- Parents can continue the learning with their children at home
- Securely invite additional family members worldwide to view your child's Kinderloop!
